# Greetings to the Graduates

---

The pomp and ceremony of convocation exercises formally mark an important life transition for you, our graduates. Surrounded by proud families, friends, teachers and mentors, you may now move forward with confidence, having earned our admiration and praise.

Each of you submitted to a rigorous intellectual path and each has proved worthy. Today, you mark an important milestone in your life while we, your community, mark an important one in ours. Ninety-six years ago, the University of Alberta was founded on a scrubby piece of riverbank by men and women who believed this province should be built on a foundation of knowledge.

At that time, our founding president, Henry Marshall Tory, promised that the knowledge within these walls would not remain here, but would flow forever outward in service to our community. Today, you join more than 170,000 University of Alberta alumni worldwide in fulfilling that promise.

---

Universities began as small collections of scholars who worked together to preserve and advance knowledge. Students came to study with them and, in due course, an administrative structure arose to provide system and recognition for those studies. This ancient structure is preserved at the University of Alberta, with the faculty and the students providing the core of the University's purpose: teaching and the advancement of knowledge.

---

Our lives are often marked by special milestones that leave indelible impressions on us. For students, convocation is a celebration of achievement that creates lasting memories.

I am pleased to join family members and friends in congratulating you on your convocation. It takes a great deal of dedication and commitment to successfully obtain a goal such as this. You can be proud of your perseverance and success.

Graduates of the University of Alberta are reflective of the talent and creativity that exists in our province. The skills and

Congratulations University of Alberta Graduates!

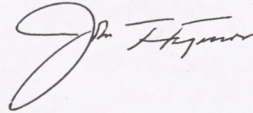

This is an exciting time in your lives—a time of great expectation and anticipation of what the future has in store for you.

Though you have now graduated I hope you will always have strong ties to the University of Alberta and the City of Edmonton.

Since 1908, our community has grown beyond the borders of Alberta to encompass the world in one global community. Learning to live peacefully and prosperously in this community will require leaders and citizens of vision, commitment and drive. More than ever, the world needs leaders and citizens like the people you have become.

While today may seem like an ending, it is not. Today is the beginning of the next leg of your journey. You will continue to grow and to learn and you will continue to be a life-long member of the University of Alberta community.

Welcome and Congratulations.

John T Ferguson, FCA, LLD (Hon)  
Chancellor

The faculty and staff congratulate you, the graduates, on the successful completion of your present studies which is recognized by the degrees to which you are admitted today. You will be amazed how rewarding it is."

Congratulations from the Faculty and Staff!

knowledge you have obtained during your academic career will stand you in good stead throughout your life.

On behalf of the Government of Alberta, I wish you success in all of your endeavours.

Dr Lyle Oberg, Minister

The education you have received from the University of Alberta gives you a solid base on which to build. To continue growing and succeeding, I hope that you take advantage of life long learning opportunities. Education throughout your life fosters personal and professional growth.

# Honorary Degree Recipient

Eric P Newell

---

Eric Newell is Chairman and Chief Executive Officer of Syncrude Canada Ltd. Under his leadership, Syncrude has become a key player in the western Canadian economy and an increasingly significant source of energy supply for Canada. The company is also considered a model for environmental efficiency and social responsibility. During Mr Newell's tenure, Syncrude has surpassed the billion barrel production benchmark and is on track to produce 20 percent of Canada's crude by 2007.

As a spokesperson for and advocate of the oil sands resource, Mr Newell is a leading figure behind the huge new era of development in the industry. As President of the Alberta Chamber of Resources, he spearheaded the creation of the National Oil Sands Task Force, which developed a comprehensive new energy vision for Canada in 1995. That vision is in the midst of being realized today and Mr Newell remains a key catalyst for growth.

Through a wide variety of nationally and locally based affiliations and memberships, Mr Newell plays an active role promoting and creating opportunity for the wider community. He is well known for his successful and ongoing efforts to strengthen partnerships between education and business and has implemented an array of learning and skills upgrading programs within Syncrude, often in conjunction with high schools, colleges and universities.

Mr Newell's efforts have been recognized with numerous awards, most notably being named an Officer of the Order of Canada and recognized for Outstanding Contribution to Alberta Science and Technology by the ASTech Foundation. Other honors include: the Canada Medal—the highest award of the Society of Chemical Industry; the Century Award from the Canadian Society of Chemical Engineering; induction into the Junior Achievement Business Hall of Fame; the 1997 U of A Canadian Business Leader Award; the inaugural Alberta Teachers' Association Award for Outstanding Effort on behalf of Public Education; elected Fellow of the Canadian Academy of Engineering; an honorary degree from Athabasca University; the Alberta School Trustees' Friends of Education Award; and the 125th Commemorative Medal of Canada.

His professional and community affiliations are extensive and among his many activities are: chairing the Conference Board of Canada and *Careers: the Next Generation* Foundation; Honorary Chairman of the Edmonton Business Council for the Visual Arts; serving as a member of the Western Diversification Business Advisory Council, Canadian Council of Chief Executives, Task Force on Modernizing Human Resources Management in the federal public service, Aboriginal Human Resources Development Council, Junior Achievement of Northern Alberta, and the Keyano College Foundation. Mr Newell is the past-chair of the U of A Board of Governors, the Governor General's Canadian Study Conference, and the Capital Health Authority's Health Smart Solutions Campaign.

The University of Alberta Senate is donating the following volume to the Bruce Peel Special Collections Library to commemorate the awarding of an honorary degree to Mr Eric Newell:

*Winnipeg Sketches, a 12 page illustrated paper.* Winnipeg, Bishop Engraving and Printing Company, 1885.

One of the most fascinating contemporary depictions of the North-West Rebellion of 1885, this publication is based upon eyewitness accounts and published in Manitoba near the actual occurrences in the Northwest Territories. The rebellion led to Louis Riel's trial and execution for treason, and heralded a new and troubled day in the history of the West. This extremely rare and vividly illustrated paper is one of only four known copies.

*The list of candidates for degrees, certificates, and diplomas appearing herein is subject to such corrections, with respect to additions, deletions, and changes, as may be necessary. The information as presented is current as of the program printing deadline. Graduates attending the ceremony are presented to the Chancellor alphabetically. The winner of the most prestigious award in each faculty, if attending, is presented first.*

# Honorary Degree Recipient

## Arthur Hiller

---

Arthur Hiller is one of the few living Edmontonians who helped to shape the imaginative landscape of North America. In a career spanning over 50 years in the entertainment industry, he brings unforgettable stories, images and songs to both the big and small screen.

Mr Hiller attended Victoria High School in Edmonton—now the Victoria Composite School that today boasts a performing arts program renowned throughout Western Canada—and he serves as the honorary chair of its foundation. After serving in World War II, Mr Hiller studied psychology and law at the University of Toronto and the University of British Columbia. In spite of his academic success and the offer of a teaching position at the University of Alberta, he found himself drawn to the world of entertainment.

He began his career with the CBC and soon after travelled south to Hollywood where he earned an international reputation in television

and motion pictures. Mr Hiller directed more than a dozen well-known television series including *Alfred Hitchcock Presents*, *The Addams Family*, *Gunsmoke* and *Perry Mason*. In film, he directed such actors as Al Pacino in *Author! Author!*, Julie Andrews in *The Americanization of Emily*, Ryan O'Neal and Ali MacGraw in *Love Story*, Peter O'Toole and Sophia Loren in *Man of La Mancha*, and Gene Wilder and Richard Pryor in *Silver Streak*, much of which was filmed here in Alberta.

Mr Hiller's efforts and vision earned him an impressive list of awards and honors including: a star on the 2002 Canadian Walk of Fame; the Jean Hersholt Humanitarian Award presented at the 2002 Academy Awards; the Robert B Aldrich Award from the Directors Guild of America; honorary life membership in the Directors Guild of America; a Best Director Nomination from the Directors Guild of America; an Academy Award nomination for Best Director; a Golden Globe Award for Best Director; and a Best Director nomination from the Academy of Television Arts and Sciences.

His work in the entertainment industry extends beyond the camera lens. He served as president of both the Directors Guild of America and the Academy of Motion Picture Arts and Sciences. He was the Founding Chairman of the Artists Rights Foundation and is a member of the National Film Preservation Board of the Library of Congress. Through these positions he was able to make his own unique contributions to the film industry.

Mr Hiller is a dedicated advocate for the transformative value of reading, education and the arts. His charitable activities are extensive and he has conducted seminars and workshops with students around the world. In addition to his work with the Victoria Composite School, for which he received the Man of the Year Award from Hadassah-WIZO, he has been involved with the Los Angeles Inner City Filmmakers, the Los Angeles Central Library Reading Program, the Anti-Defamation League, the Streisand Centre at University of California Los Angeles, and the Deaf Arts Council.

The University of Alberta Senate is donating the following volume to the Bruce Peel Special Collections Library to commemorate the awarding of an honorary degree to Mr Arthur Hiller:

Lamar Trotti, *Hudson's Bay Company*. Second revised final screenplay. [Hollywood, Twentieth Century Fox, 1940].

This colourful movie depicted the life of 17th century fur trapper Pierre Radisson, who founded the Hudson's Bay Trading Company with the backing of King Charles II and the assistance of Lord Edward Crewe. The film starred Paul Muni, Gene Tierney, Vincent Price, and John Sutton. This unique volume was Sutton's copy, which he had bound in full red morocco and extra-illustrated with stills from the film.

# Graduates

*The list of candidates for degrees, certificates, and diplomas appearing herein is subject to such corrections, with respect to additions, deletions, and changes, as may be necessary. The information as presented is current as of the program printing deadline. Graduates attending the ceremony are presented to the Chancellor alphabetically. The winner of the most prestigious award in each faculty, if attending, is presented first.*

# History of Convocation

---

In the eleventh century, a new vitality quickened all aspects of the civilization of Western Europe. The creative forces thus unleashed soon found expression in new institutions, and of these the university bids fair to be the most enduring. The modern university is the lineal descendant of the university of the Middle Ages. Its purposes and organization, even much of its ceremonial, are medieval in origin.

The medieval university was originally called a *studium generale*, that is, a place of learning to which teachers and students from anywhere resorted. The first *studia* were at Salerno, Bologna, and Paris. These came into existence spontaneously and developed through the twelfth century as the needs of the time and their inner necessities dictated. In the thirteenth century these spontaneous associations crystallized into guilds or corporations endowed by Church and State with specific privileges which guaranteed the internal autonomy necessary for the vocation of study. To these corporations was increasingly applied the word *universitas* denoting the entire group of those responsible for the transmission of higher learning and the pursuit of knowledge.

By the beginning of the 14th century, two forms of university organization had appeared. At Bologna, primarily a higher school of canon and civil law to which came men experienced in ecclesiastical and secular administration, the control of the *studium generale* passed to the students; hence Bologna was a *universitas scholarum*. On the other hand in Paris and Oxford, whose dominant faculty was the Faculty of Arts, the *studium* emerged under the direction of a guild of teachers, a *universitas magistrorum*. Through its own officials, notably the chancellor (once symbol of external control and by now of internal autonomy), the guild of teachers developed its courses of instruction, administered its own affairs and admitted to its company only those who had met its intellectual standards. The University of Alberta stands in the tradition of Paris and Oxford.

Originally the goal of the medieval student was certification by the guild of teachers that he also was qualified to teach (the *licentia docendi*). With the passage of time the student's progress through the curriculum was marked by ceremonies which signified his successful attainment of a certain level (*gradus* or in modern language, degree) of competence. The Bachelor had completed his apprenticeship in the Faculty of Arts. The Master was now qualified to teach in that Faculty and was thus incorporated into the *universitas magistrorum*. The Doctor was one who, having obtained the mastership, had successfully completed the curriculum of one of the "higher" faculties (in the Middle Ages, law, medicine, and theology) and was now qualified to teach in those faculties. Inevitably the degrees of the *universitas* did more than admit their holders to the teaching profession. They served the wider social purpose of demonstrating their holders' fitness to serve the entire medieval community.

Today's ceremony stems from the medieval tradition. The procession of the guild of teachers, whose solemn assembly, or convocation, is the modern equivalent of the medieval *magna congregatio* of all faculties, is led by the Chancellor and the Chief Marshal carrying the mace, the symbol of the University's corporate authority. The academic gowns, hoods, and caps, once the sober, disciplined dress of secular clergy and teachers, declare in their various designs and colours the academic qualifications of the Faculty. The citations and presentations by the Faculty to the

Chancellor attest to him and to society the degree of proficiency attained by the students of the University. There follows a visible and public act whereby the *universitas magistrorum*, acting through its Chancellor, confers upon the students the appropriate degree. It is the act, not a certificate, which constitutes the validity of the degree bestowed. More, the formula, "I admit you" and the placing of the students' hands within the hands of the Chancellor and his associates, bind the students in the appropriate degree to the *universitas magistrorum*. The students thereafter bear for all time the mark of their association with this University. They have received what the University has been and presently is. Because they bear in themselves the promise of the future, they are what the University hopes to be. Despite its solemnity, convocation is a joyous occasion.

The history of academic dress reaches far back into early days of the oldest universities. A statute of 1321 required that all "Doctors, Licentiates, and Bachelors" of the University of Coimbra wear gowns. In England, in the second half of the fourteenth century, the statutes of certain colleges forbade "excess apparel" and prescribed the wearing of a long gown. It is still a controversial question as to whether academic dress finds its sources chiefly in ecclesiastical or in civilian dress. Gowns may have been counted necessary for warmth in the unheated buildings frequented by medieval scholars. Hoods seem to have served to cover the tonsured head until superseded for that purpose by the skull cap. This was itself displaced by a headdress more or less like one or another of those now recognized as "academic." (The mortar board—the hard, square cap commonly used as academic headdress today—evolved from the softer, more flexible "square cap" introduced in England about 1490. It is named for the square board on a handle used by stone masons for holding the mixed mortar to be applied to walls.) Both Cambridge and Oxford have made academic dress a matter of university control to the extent of even its minor details and have repeatedly issued revised regulations. In Laudian days in Oxford it was prescribed that any tailor who departed from authorized design "even by a nail's breadth" in the making of any article of collegiate costume was to be punished by the vice-chancellor of the university.

Academic dress at the University of Alberta generally follows the prescription of Cambridge University in the design of the gown, and that of Oxford University in the design of the hood. See page 60 for a detailed description of the academic dress at this institution.

In addition to the apparel worn by holders of degrees conferred by the University of Alberta, a collection of apparel specific to particular offices has also been developed. The President of the University wears a green gown faced with gold braid trim and lining and a green cap with a gold tassel. The Chancellor and Chancellors Emeriti wear gowns of teal blue with silver trim and black caps with silver tassels. The gowns of the senior officials bear an embroidered crest of the University. University Governors and Senators wear stoles bearing the crest of the University over their gowns: gold for Governors and green for Senators. The University Registrar wears a green gown with gold trim on the sleeves.

Graduates and staff of the University of Alberta who wish to purchase their own academic apparel are invited to contact the Convocation Officer in the Office of the Registrar and Student Awards.

# The University Coat of Arms

---

On November 15, 1909, a motion by the faculty recommended to the Senate the adoption by the University of the provincial coat of arms, with the addition of an open book above the shield and the motto *Lux et Lex*; the words "University of Alberta" were to be attached as might seem fit. The present motto was substituted in January 1911 for the one originally proposed. In 1950 the representation of the coat of arms was altered to conform better to the principles of heraldic design but these arms were never actually registered.

In 1994 a new coat of arms incorporating a number of traditional symbols associated with the University or the Province, or with learning, was officially granted by the Canadian Heraldic Authority. In non-technical language, it consists of the following elements:

**Shield:** a representation of the topography of Alberta (wheat fields, hills, rivers, and the Rocky Mountains) derived from the provincial coat of arms, and a book symbolizing learning.

**Crest:** a Great Horned Owl, the provincial bird and a traditional symbol of wisdom.

**Supporters:** a pronghorn, taken from the provincial coat of arms, and a golden bear, long the University mascot, standing on a mound of wild roses, the floral emblem of Alberta.

**Motto:** *Quaecumque vera* ("Whatsoever things are true," Philippians 4:8)

The arms are copyrighted and may not be used without permission of the Board of Governors. The name of the University is similarly protected.

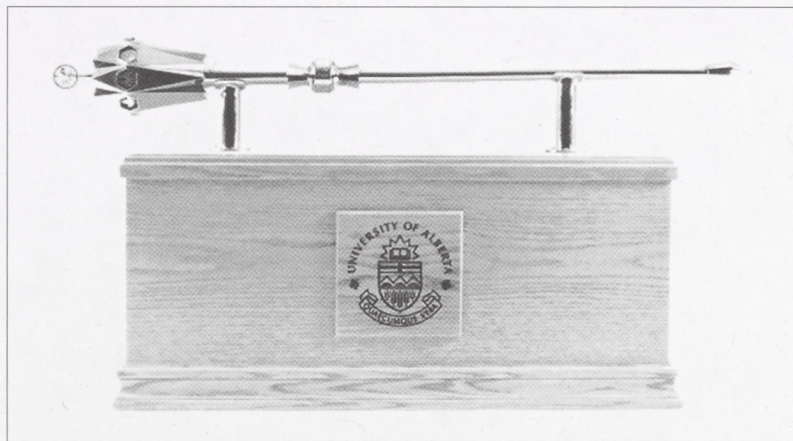

# University Mace and Ceremonial Chairs

The University of Alberta Mace was designed and crafted specifically for the University as a gift from Dr Francis Phillip Galbraith, Chancellor of the University of Alberta from 1964 to 1970. Michael Galbraith presented the Mace on behalf of his father on May 26, 1970.

Among its elements are the Star of Saint Thomas Aquinas, the Patron Saint of Scholars; the Wild Rose of Alberta; the Maple Leaf; and the separate charges which make up the University's Emblem. The University motto "Quaecumque Vera" ("Whatsoever Things Are True" Phil 4:8) encircles the staff. The Mace is made of sterling silver which was rhodium plated after the insertion of the various enamelled shields which make up its elements. A special electroplate process was used to apply 24 karat gold to other parts of the Mace.

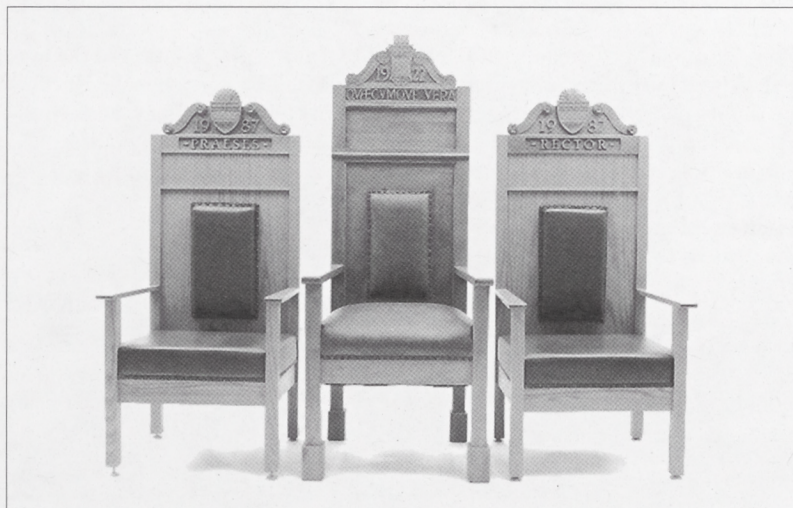

It was intended that the Mace should be modern in appearance but with medieval origins. The preponderance of visual weight at the top of the staff and the rather complex section through the metalwork at this point are reminiscent of the use of the mace as a weapon, defensive or aggressive.

The Mace is carried before the Chancellor, or Vice-Chancellor, in procession and rests on its stand in full view of the assembly during Convocation. Centuries ago the Mace was a symbol of authority over life and death. Today it represents power — but the power of knowledge and the importance of the University in the community.

The Chancellor's Chair was presented to the University of Alberta as a gift from the 1922 graduating class. It is made of solid oak with a padded leather back and seat. Above the padded-leather back is carved the University motto "Quaecumque Vera" together with the class year, 1922, and the University emblem.

In 1987, the family and friends of Dr Charles Malcolm Macleod, Chair of the Board of Governors from 1950 to 1966, presented a memorial gift to the University of an oak stand for the University of Alberta Mace and two additional chairs for use by the President and the Chair of the Board of Governors at Convocation.

# Academic Dress

All undergraduate and master's degree gowns are the customary Cambridge shape, i.e., a gown of black material falling below the knee with full sleeves cut to the elbow and terminating in a point. Hoods are made in the Oxford pattern of spruce green material. The Bachelor's hood has a border three inches wide of the color distinctive of the Faculty as noted below. The Masters' hood has a full lining of the color distinctive of the Faculty also noted below. Mortarboards are the standard black trencher shape with black tassels, which are worn forward and to the left.

## Doctorate Degrees

Doctors' gowns (PhD, DMus, and EdD) conform to the Intercollegiate Code in design. They are made of black material and the velvet trim on the sleeves is Philosophy Blue for the PhD and DMus, and Education Light Blue for the EdD. Doctors' hoods conform to the Intercollegiate Code in shape, size, and color. They are made of black material to match the gown, and have a full lining of gold satin with a six-inch green satin chevron. The velvet trim distinguishes the two degrees and matches the velvet trim on the gown's sleeves. There is a narrow green piping where the gold lining joins the black material. Mortarboards are the standard black trencher shape with black tassels, which are worn forward and to the left.

## Honorary Doctorates

Honorary Doctors of Laws (LLD), Letters (DLitt), and Science (DSc) wear a scarlet robe faced with white silk. Hoods are made in the Cambridge form of scarlet silk with a full lining of white silk. Caps are black velvet with a gold tassel.

If you can, please share this program with a companion. Then, if you do not take it home, please leave it (in good repair) on the table outside the doors as you exit the auditorium. This will help us ensure that someone else can use it on another day of Convocation, and subsequently conserve paper. Thank you for your assistance.
